Outside the store, the loss prevention employee identified himself to the suspects. One of the suspects shoved and verbally threatened the loss prevention employee before both suspects ran to a gray Mercedes-Benz and fled toward San Francisco. SFPD was notified and they conducted a traffic stop on the suspect vehicle. DCPD officers and the loss prevention employee responded to their location. After the loss prevention employee positively identified both suspects, they were arrested. The backpack containing the stolen merchandise was found in the backseat of the vehicle. Later, the second suspect returned to the same area of the store, selected multiple bras, placed them in a backpack, and exited the store. The first suspect proceeded to put back a long dress that he was holding, purchased a small item with cash, and then left the store. Inside the unlocked vehicle, officers found a roll of black trash bags, a tool to remove security sensors, a bag containing multiple removed sensors, and a large duffle bag in the trunk containing two black trash bags filled with bras. Nextdoor.com

Nextdoor.com is a free private social networking website for your neighborhood. This private network ensures that only those who live in your neighborhood can join; users must go through a verification process. Neighbors ask each other for business recommendations; help in locating missing pets; discuss relevant local government issues; or connect for other reasons. It is very easy to sign up. I like the fact that the site verifies users by addresses, and it won't allow people to access a neighborhood if they don't live there. Please note: The City of Daly City and/or the Police Department cannot see what residents post—we are only allowed to post information. There is also a mobile application, or you can have it sent to your e-mail. Give it a try!
