## Robberies

There was one attempted robbery during the past week.

On Sunday, 07-10-22, at approximately 8:13 p.m., officers were dispatched to **Dollar Tree** on **Mission Street** on a report of an attempted armed robbery. An employee stated that the suspect grabbed both her arms and pushed her inside the main office. Once inside the office, the employee turned to face the suspect, who told her, "Give me the money." The employee pushed the suspect outside the office and held the door handle so that the suspect could not enter. The suspect then said, "You better not call the police." The suspect then confronted a cashier at the check stand. The cashier said the suspect had his hand in his pocket while demanding money at the register. The suspect then demanded money a second time and pulled his right hand out of his pocket. The cashier noticed a pistol fall from the suspect's pocket onto the floor. ## Scams/Other

### Internet Scam

On Thursday, 07-06-22, at approximately 8:00 p.m., a 68-year-old Daly City resident noticed a popup while on his laptop that stated it was Apple support and that his laptop was possibly hacked. The victim called the phone number on the popup. The victim spoke with "Ryan," who told him he was from Apple support. "Ryan" told the victim that his laptop was possibly hacked and to download "Teams" so that "Ryan" could connect to his laptop and to leave the laptop on overnight so that it could be monitored. "Ryan" told the victim that he would call back the next morning. On Thursday, 07-07-22, at approximately 9:00 a.m., the victim did not receive a call from "Ryan," so he called and left a message. "Ryan" returned the victim's phone call and informed the victim that there was a \$97,589.00 pending charge on his Bank of America account. The victim didn't recognize that charge and believed it to be a fraudulent charge. While on the phone, "Ryan" connected the victim to "Michael Monahan," who posed as a Bank of America fraud department representative. "Michael Monahan" told the victim that Bank of America employees cannot be trusted and convinced the victim to go to Bank of America and transfer \$97,589.00 to a "Safe Custody Account." The victim had "Michael Monahan" on the phone, in his pocket, during the wire transfer at Bank of America. The victim said Bank of America had advised him that a wire transfer could not be reversed, but the victim continued with the transfer anyway. The victim left Bank of America, and "Michael Monahan" informed the victim that the money would return to his account in a few days. The victim called his daughter and informed her of the incident. The victim's daughter told him that it was a scam and to go back to the bank to cancel the transfer. The victim went to Bank of America, but could not cancel the transfer.

This private network ensures that only those who live in your neighborhood can join; users must go through a verification process. Neighbors ask each other for business recommendations; help in locating missing pets; discuss relevant local government issues; or connect for other reasons. It is very easy to sign up. I like the fact that the site verifies users by addresses, and it won't allow people to access a neighborhood if they don't live there.
